

PRESS RELEASE FROM ROXTEC INTERNATIONAL, KARLSKRONA, SWEDEN – AUGUST 2016

## **Poltramp Yard selects Roxtec non-weld sealing solutions**

*Poltramp Yard S.A. in Świnoujście, Poland, used the new Roxtec SPM seals for the BoDo Constructor – a newly built offshore cable laying barge-pontoon.*

Poltramp Yard needed to seal the openings for a substantial amount of pipes onboard the large vessel, but in many places welding was not possible due to safety regulations. Poltramp Yard therefore decided to use the certified Roxtec SPM seal which does not require any welding. Fast and easy installation was another reason for the shipyard to choose Roxtec.

### **Certified protection**

The Roxtec SPM seal can be used with any kind of metal pipe onboard marine or offshore structures to ensure protection against fire, gas and water. The solution makes it easy to ensure safety and operational reliability – without any downtime or cost associated with welding. The seal has a MED certification from DNV-GL and type approval certificates from ABS, RMRS and LR.

### **Complete transit supplier**

The 2,700 ton vessel is 120 m long, 32 m wide and 6.5 m deep. It is equipped with a carousel for cable storage and a cable laying system. It may also serve as a logistics base for offshore wind farm construction. Roxtec has through its Polish subsidiary supplied a large number of sealing solutions for the project.

For more information, please contact Roger Johansson, Executive Vice President Business Area Marine & Offshore, Roxtec, by email [roger.johansson@roxtec.com](mailto:roger.johansson@roxtec.com), or phone +46 733 31 31 33.

### **About Roxtec and Multidiameter™**

*Swedish Roxtec Group is the world-leading provider of modular-based cable and pipe transits. The company's invention for adaptability to cables and pipes of different sizes, Multidiameter™, is based on sealing modules with removable rubber layers and allows for a perfect sealing, regardless of the outside dimension of the cable or pipe. The technology simplifies design, speeds up installation and reduces the need for stock, material and logistics. It also provides spare capacity for upgrades. Roxtec serves and supports customers in more than 80 markets through subsidiaries and distributors. For more information, please visit [www.roxtec.com](http://www.roxtec.com).*
